MADE IN SPAIN 48 pages of the best Spain has to offer in terms of services and innovation

ESSENTIALLY SPAIN

Our favourite products and services for the superyacht industry from some dynamic and innovative Spanish companies

MASTER YACHTS

Operating today's superyachts can be a challenging task for the most hardened marine professionals. Master Yachts' expertise ensures a successful outcome to these challenges while offering a wide range of yacht management services. These cover all safety aspects, accounts, operations, crew administration, and support. Additionally, they cover management of new build, refit, and professional consultancy provided by the highly experienced staff of ex-captains, engineers, surveyors, and supporting personnel. MYC's sister company, Master Asset Management, also provides physical asset management solutions for High Net Worth individuals.

TAKUMA

Takuma are proud to stand out and be different. Using their unique skillset and industry expertise they deliver innovations that last. Whether an Efoil, foil, board or wing, they develop products that will enhance the exceptional feeling of flying above water. With Japan as a key influencer, they are constantly testing out new technologies and looking for developments that will further the ingenuity and their ability to make massive steps forward for the progress of foiling. The efoil product range is built from the solid foundation of their exceptional foils, setting them apart from their competitors. Takuma Efoils are so easy that almost anyone can learn. They create a very select product range that fits a wide segment with a minimalist style suited to all riders. Through intensive research and testing they produce innovative solutions.

ONDARZA ABOGADOS

The firm Ondarza Abogados, LVOF, began its activity in 1993, focusing on Maritime Law and, in particular, on recreational boating. It is formed by León von Ondarza, director of the firm; Carmen Quer, both graduates in Law and specialised in Maritime Law; and Ana del Valle, graduate in Civil Marine. The firm offers advice on the different aspects that may affect vessels and pleasure crafts. They also provide consultancy regarding registration and flagging in Spain, advice for charter business plus tax consultancy for ships and pleasure craft. León von Ondarza Fuster, head of the professional team that makes up Ondarza Abogados, LVOF, with his in-depth knowledge of the subject, also teaches at different nautical academies and on university postgraduate courses, as well as being the author of numerous publications and articles on maritime and nautical law. He is the secretary of the Spanish Association of Great Yachts (AEGY) and member of the Spanish Maritime Law Association (AEDM).
